

2024 Research, Innovation and Transformation Awards - Nomination Form

Form Preview

Introduction

The strategic goal of the Gold Coast Health **Research Innovation and Transformation Awards** is to recognise, reward, and thereby encourage excellence in impactful research, innovation or transformation activity by Gold Coast Health staff.

Research Award categories are aligned to the [Research Strategy](#), to stimulate excellence and reflect national research directions, such as the increasing focus on service and translation activities. The awards support a growing research culture at Gold Coast Health and are an opportunity to identify what we value in research.

The Health System Transformation Award aligns with our [Strategic Plan 2024-2028 \(G28\)](#) objective to drive future-focused change. This award fosters a culture of transformation and innovation at Gold Coast Health.

The Collaborative Delivery Award is a new award which acknowledges demonstrated collaboration and partnership in designing and delivering research, innovation or transformation. It recognises teams or organisations that have partnered with Gold Coast Health to deliver solutions to healthcare problems and to achieve sustainable impacts for patients, staff, systems or finance.

Award recipients will be honoured at the 2025 Gold Coast Health Research, Innovation and Transformation Showcase to be held 20 March 2025.

Nominations must address the overarching guidelines and specific criteria for the relevant category for the nomination to be valid and considered by the judges.

Individuals or teams may **Self-Nominate**. Submissions can also be made by **Nominators**, who have a direct knowledge of the individual/team and/or research project, and can appropriately nominate against the selection criteria and the nominee's contribution to research or health system transformation excellence.

Instructions for nomination

Nominations will be accepted across seven categories:

- Novice / Emerging Researcher of the year award
- Researcher of the year award
- Research Support Award
- Research Project Team of the year award
- Translating Research into Practice award
- Health System Transformation award
- Collaborative Delivery Award

Nominations must address the overarching guidelines as well as the criteria relevant to the nomination category to be valid and considered by the judges.

Please ensure you have read the guidelines before commencing your nomination.

Once you have commenced the nomination form, ensure you **'save as you go'** to avoid loss of content due to timeouts. You may **'save'** at any point within the form to return later by logging back into SmartyGrants. However, once you have **'submitted'** the form, you will be unable to make further changes.

2024 Research, Innovation and Transformation Awards - Nomination Form

Form Preview

Nomination Requirements:

- Please ensure you have read the [nomination guideline](#).
- Each of the category criteria should be clearly addressed.
- Researcher CV/s (no more than 3 pages) to be uploaded where prompted.
- Evidence to support the nomination (no more than 10 pages) to be uploaded where prompted.
- Manager or Head of Department statement of support to be uploaded where prompted ([click here for the template](#))
- Manager or Head of Department statement of support for **Collaborative Delivery** category to be uploaded where prompted ([click here for the template](#))
- Communications piece summarising the research, health system transformation or collaborative delivery contribution which can be used for publicity purposes.

Please note: Where a **Nominator** is making the submission, any requirements (eg. CV/s, Manager Endorsement Statement, Communications Piece) that can't be provided by the nominator, will be requested from the nominee as part of their acceptance and validation of the nomination.

Where applicable, please convert your documents to PDF prior to upload.

Nominations close **16 December 2024 (Midnight end of day)**

Response to selection criteria

Novice / Emerging Researcher of the Year Award - Individual Award

This award recognises excellence in research for staff who are in the early stage of their research career. A Novice Researcher is typically defined as having no formal research training and limited experience in leading research. An Emerging Clinician Researcher is typically defined as having up to two years research activity after completion of a Research Higher Degree (RHD) or equivalent track record.

Nominations should focus particularly on achievements in the previous 12-months.

Please provide a brief overview which describes why you believe the work should be recognised and rewarded. *

Word count:

Must be no more than 150 words.

Productivity and Quality *

Word count:

Must be no more than 250 words.

- Track record (relative to opportunity), number of publications, grants and ongoing projects. Evidence of high-quality publications, presentations, patents, incorporation into guidelines etc. Nominees will be judged on both the quantity and quality of these outputs (e.g. first-author publications, peer-review in reputable journals, journal ranking within the individual's discipline or specialty).

Impact and Recognition *

Word count:

Must be no more than 250 words.

- Relevance and importance of the research to Gold Coast Health. Evidence of translational impact in Gold Coast Health, nationally and/or internationally. Evidence of recognition at a local, national and/or international level, for example awards and invited presentations.

Leadership and Service *

Word count:

2024 Research, Innovation and Transformation Awards - Nomination Form

Form Preview

Must be no more than 250 words.

- Evidence of emerging leadership and service activities, including contribution to committees, education, reviewing and any research supervision.

Response to selection criteria

Researcher of the Year Award - Individual Award

This award recognises exceptional individual contributions to research for applicants of any career stage. Nominations should focus particularly on achievements in the previous 12 months.

Please provide a brief overview which describes why you believe the work should be recognised and rewarded. *

Word count:

Must be no more than 150 words.

Productivity and Quality *

Word count:

Must be no more than 250 words.

- Track record (relative to opportunity), of publications, grants and ongoing projects. Evidence of high-quality publications, presentations, patents, incorporation into guidelines etc. Nominations will be judged on both the quantity and quality of these outputs (e.g. peer review in reputable journals, journal ranking within the individual's discipline or specialty).

Impact and Recognition *

Word count:

Must be no more than 250 words.

- Relevance and importance of the research to Gold Coast Health. Evidence of translational impact in Gold Coast Health, nationally and/or internationally. Evidence of recognition at a national and/or international level, for example awards and invited presentations.

Leadership and Service *

Word count:

Must be no more than 250 words.

- Evidence of leadership and service including reviewing and editorial work, supervision, mentorship, contribution to committees, contributions to research education and other activities which are usually voluntary.

Response to selection criteria

Research Support Award - Individual Award

2024 Research, Innovation and Transformation Awards - Nomination Form

Form Preview

This award recognises the exceptional support and/or leadership to those who enable research. This award acknowledges the contribution of Research Support staff and their impact on building research capacity and capability at Gold Coast Health.

Please provide a brief overview which describes why you believe the work should be recognised and rewarded. *

Word count:

Must be no more than 150 words.

Productivity and Quality *

Word count:

Must be no more than 250 words.

- Demonstrated leadership and excellence in support of the research process which exceeds the typical function of the individual's role at Gold Coast Health. Nominations should outline how the individual has supported research within Gold Coast Health.

Impact and Recognition *

Word count:

Must be no more than 250 words.

- Evidence of how the individual has supported the growth and/or sustainability of research within Gold Coast Health. Evidence of any formal recognition which may have been received for the individual's outstanding contribution.

Response to selection criteria

Research Project Team of the Year Award - Team Award

This award recognises excellence of a team's research achievements. This award seeks to recognise research teams which have had national and/or international impacts and recognition for a project, especially in the previous 12-months.

Please provide a brief overview which describes why you believe the work should be recognised and rewarded. *

Word count:

Must be no more than 150 words.

Team Productivity and Quality *

Word count:

Must be no more than 250 words.

- Track record and skill mix of the project team members and evidence of successful collaboration. Evidence of high-quality publications, presentations, patents, incorporation into guidelines etc. Teams will be judged on both the quantity and quality of these outputs (e.g. peer review in reputable journals, journal ranking within the relevant discipline or speciality).

Impact and Recognition *

Word count:

Must be no more than 250 words.

- Relevance and importance of the research to Gold Coast Health. Evidence of translational impact in Gold Coast Health, nationally and/or internationally. Evidence of recognition at a national and/or international level, for example awards and invited presentations.

Capacity Building *

Word count:

Must be no more than 250 words.

- Evidence of an effective approach to research capacity building of the team, including commitment to training, inclusion of members of different levels, and team-level planning/strategy. Evidence of any contributions to research capacity building outside of the team, for example within Gold Coast Health or other health services.

Response to selection criteria

Translating Research into Practice Award - Project Award

An award which recognises excellence in research translation. This may be through research or through evidence-based practice initiatives to apply research.

Please provide a brief overview which describes why you believe the work should be recognised and rewarded. *

Word count:

Must be no more than 150 words.

Team Productivity and Quality *

Word count:

Must be no more than 250 words.

- Track record of the project team members and value of the collaboration. Teams will be judged on both the quantity and quality of outputs, particularly those resulting in a direct translational benefit from the project.

Translational Impact *

2024 Research, Innovation and Transformation Awards - Nomination Form

Form Preview

Word count:

Must be no more than 250 words.

- Evidence of translation into health care, at Gold Coast Health and in other health or health-related institutions. Evidence of a structured plan of approach to translation, including measurable outcomes, impact of translation (e.g. change in practice, translation into guidelines, policy, clinical education).

Capacity Building *

Word count:

Must be no more than 250 words.

- Evidence of an effective approach to research capacity building of the team, including commitment to training, inclusion of members of different levels, and team-level planning/strategy. Evidence of any contributions to research capacity building outside of the team, for example within Gold Coast Health or other health services.

Response to selection criteria

Health System Transformation Award - Team Award

This award recognises an **initiative or project team** who have demonstrated excellence in designing and delivering transformation or innovation. The award seeks to recognise teams which have applied engaging problem solving or human centred design approaches and/or delivered sustainable patient, staff, system or financial impacts in the last 12 months.

Please provide a brief overview which describes why you believe the work should be recognised and rewarded. *

Word count:

Must be no more than 150 words.

Problem Definition *

Word count:

Must be no more than 250 words.

- Evidence of a well-researched and clearly articulated problem statement. Provide an overview of the process the team went through to understand the problem and evidence that solving the problem contributes towards Gold Coast Health's strategic objectives.

Co-design *

Word count:

Must be no more than 250 words.

- Evidence of a collaborative approach during the design of the transformation or innovation. Provide an overview of engagement activities conducted with front line staff, consumers and/or external partners. This could include testimonials from stakeholders.

2024 Research, Innovation and Transformation Awards - Nomination Form

Form Preview

Demonstrated Value *

Word count:

Must be no more than 250 words.

- Evidence of measurable impact and results achieved by implementing the change. These impacts should be quantifiable – examples include improvements in key performance indicators, increased productivity, cost savings, improved patient outcomes, improved customer satisfaction or other relevant metrics related to patient, staff, system or financial impacts. Provide an overview of the improvement, the time period and data source.

Scale and Spread *

Word count:

Must be no more than 250 words.

- Evidence that the initiative/project has the potential to be scaled up to full implementation or replicated in other contexts. Describe the roadmap or framework that will allow others to adopt and adapt the product, process or service and provide examples of where it could be replicated.

Response to selection criteria

Collaborative Delivery Award

This award recognises demonstrated collaboration and partnership in designing and delivering research, innovation or transformation. The award seeks to recognise teams or organisations which have partnered collaboratively with Gold Coast Health to deliver solutions to healthcare problems and/or delivered sustainable patient, staff, system or financial impacts.

Please provide a brief overview which describes why you believe the project / collaboration should be recognised and rewarded. *

Word count:

Must be no more than 150 words.

Problem Definition *

Word count:

Must be no more than 250 words.

- Evidence of a well-researched and clearly articulated problem statement.

Approach *

Word count:

Must be no more than 250 words.

2024 Research, Innovation and Transformation Awards - Nomination Form

Form Preview

- Evidence of a partnership or collaborative approach during the design of the research, innovation or transformation. The team should have demonstrated novel approaches to engage key stakeholders which could include front line staff, consumers and/or external partners.

Capacity Building *

Word count:

Must be no more than 250 words.

- Demonstrated transfer of skills and/or expertise between clinical and non-clinical subject matter experts and external partners. Evidence may include ongoing partnership agreements, illustrating sustainability in collaboration.

Demonstrated Value *

Word count:

Must be no more than 250 words.

- Evidence of measurable impact and results achieved through the research, innovation or transformation. This could include quantifiable improvements in key performance indicators, increased productivity, cost savings, improved patient outcomes, improved customer satisfaction or other relevant metrics.

Additional Details

Please make any other notes relevant to the application, including anything included in this form that should be kept confidential to the judging panel, and not used in publicity relating to the awards.
